

3

great things about your wiki project

lots of information and had hyperlinks for the words we didn't understand.

your videos were really good and gave good information about the changing shape of information.

Your information layout was good, we could see the information clearly.

2

suggestions for improving your wiki project

Cut down on the videos because there was too much to listen to.

You need to have some images to go with your videos.

1

piece of new knowledge that our group has thanks to your wiki

We learnt about the new software being produced by the three computer companies.
